To whom it may concern

RECOMMENDATION: NKANGA LODGE

AutoX would like to take this opportunity to offer a formal recommendation for Nkanga Lodge.

We have been dealing with them since 2007 for catering purposes, conference facilities as well as accommodation, in business and private functions / conferences.

Karen and her team demonstrated incredible initiative and strong dedication to all tasks set for them. AutoX could not help but notice how professional and proficient they are, and no matter how big or small the function is, the service levels are excellent. Even at short notice, they continues to exude creativity with all their functions, and the team's attention to detail, from planning to execution, ensures that every event / conference is a success.

We are confident the staff will go above and beyond our expectations by ensuring quality of service and an unparalleled sense of pride in their work. We refer them on a regular basis to other Corporate Companies, family and friends because of their fantastic accommodation facilities, as well as menu options, which appeal to the environmental audience with local and sustainable food items, as well as their solution-oriented approach to problem solving, catering experience and knowledge.

In our opinion they lead by example and people in the hospitality industry would definitely benefit by following there example.

Their dedication to excellence and hard work has created a happy and productive team. We cannot imagine working with a better hospitality partner than Nkanga Lodge.

It is our pleasure to write a letter of recommendation for Nkanga Lodge because we can truthfully attest to their excellence in accommodation, catering and professional services.

Should you have any questions, please contact me at any time.
